

# CAPBs® sens GS10

Gas sniffer

## Description

Sensor unit for fast and reliable gas leak detection. The flexible probe allows for use in spaces difficult to access. The gas concentration is displayed by the evaluation unit in ppm; the CAPBs® measurement unit provides an audible signal. The alarm threshold can be adjusted as required. Due to the base calibration for methane, a wide range of flammable gases is detectable. The anti-poisoning protection function for the sensor ensures a long service life.

## Application

- Gas leak detection
- Detection of gas leaks (flammable gases) in gas pipes as well as connection pieces and fittings, gas meters, gas burners and gas tanks

## Technical specifications

Dimensions H x W x D	290 x 42 x 35 mm
Measuring range	0 / 2,000 ppm CH <sub>4</sub>
Resolution	10 ppm
Part no.	M090 13 14 10
