

CAPBs® sens RH80

Air temperature & humidity

Description

Sensor unit for measurement of temperature and relative humidity in ambient air. Calculation of absolute humidity and dew point temperature.

Application

- Checks of the climatic conditions in rooms
- Mould prevention
- Evaluation of the indoor air quality (IAQ)

Technical specifications

Dimensions H x W x D	82 x 42 x 35 mm		Temperature
Measuring range	0 / 100 % r.h.	-40 / +80 °C	
Accuracy	±3 % r.h. ±1 digit	±0.5 °C ±1 digit	
Resolution	0.1 % r.h.	0.1 °C	
Part no.	M090 11 12 10
